Filmed presentations

39 **filmed presentations** from the Greece 2025 Conference Programme are available to stream online.

All films can be viewed completely **free of charge**, thanks to the generous support of our conference film sponsors, Helios.

The Greece 2025 films include 5 keynote presentations (30 mins), 30 oral presentations (15 mins) and 4 poster talks (7 mins). Presentations are listed in the order they were scheduled at the event itself, divided up per individual session. With individual talks lasting from 7 to 30 minutes, you can listen to the best homeopathy researchers around the world at your own pace and convenience.

Watching all films will provide ~11 hours of learning time, so check with your registering organisation for validity as a CPD activity.

For information about special arrangements for those running University or College courses, please contact us via communications@hri-research.org.

Playlists (for full list of talks see below)		Number of talks	Approximate duration
1	Provings/Economics	2	1 hr
2	Clinical Research 1	3	1 hr
3	Basic Research 1	4	1 hr 20 mins
4	Organisation Updates	4	30 mins
5	Poster Talks	3	20 mins
6	Agrohomeopathy	3	1hr 15 mins
7	Clinical Research 2	2	50 mins
8	Clinical Research 3	4	1 hr
9	Basic Research 2	4	1 hr
10	Basic Research 3	4	1 hr
11	Clinical Research 4	3	45 mins
12	Basic Research 4	4	45 mins
13	Veterinary Research	3	1 hr 5 mins

Any talks included in the conference programme but not listed here are unavailable, either because the work presented has not yet been published or due to last minute programme changes during the event.

Playlist 1 - Provings/Economics

Prof Ashley Ross, South Africa. *“Similia Similibus Curentur”: Ensuring the dependability of modern Materia Medica*

Prof Thomas Ostermann, Germany. *Homeopathy: to make or not to make the economic case – a critical appraisal*

Playlist 2 - Clinical Research 1

Dr Marcus Reif, Germany. *Antibiotic prescription and course of therapy in homeopathic, anthroposophic and conventional primary care in the treatment of upper respiratory tract infections – a non-interventional study*

Dr Harleen Kaur, India. *Management of trigeminal neuralgia with add-on homeopathic medicines - A double blind, randomised, placebo-controlled pilot study*

Prof Ubiratan Adler, Brazil. *Homeopathy as a personalised adjuvant approach in treating major depressive disorder: An N-of-1 study and physicochemical analysis of homeopathic preparations*

Playlist 3 - Basic Research 1

Dr Alexander Tournier, Switzerland. *How does homeopathy work? A scoping review of proposed modes of action*

Dr Maria Fernanda Aguilar-Dueñas, Mexico. *Ultra-high dilutions and their immunological impact in healthy patients: evidence from a randomised single-blind study*

Prof Oskan Tasinov, Bulgaria. *In vitro effect of Ferrum phosphoricum D12 on translation of inflammation and iron metabolism related proteins in LPS stimulated J774A.1 mouse macrophages*

Dr Sandra Tribolo, France. *Anas barbariae 200k improves phagocytosis, modulates cell stiffness and oxidative stress in microglial cells in vitro*

Playlist 4 - Organisation Updates

HRI Update

GIRI Update

CCRH Update

FYR Update

Playlist 5 - Poster Talks

Dr Christa Raak, Germany. *Gene expression analysis of Sulfur activated CD4 + T lymphocytes from patients with periodontal inflammation and a healthy control group – a protocol*

Christoph Dombrowsky, Switzerland. *NMR T1 and T2 relaxation times of potentized preparations*

Dr Petra Weiermayer, Austria. *Assessing the feasibility of a two-cohort design to assess the potential of homeopathic medicinal products to reduce antimicrobial resistance in turkeys - study protocol*

Playlist 6 - Agrohomeopathy

Prof Pedro Boff, Brazil. *Homeopathy for agriculture and the environment: an integrative approach*

Paul Doesburg, Switzerland. *Development of a simple bioassay to enable citizen science projects in basic homeopathic research*

Dr Leonardo Faedo, Brazil. *The use of homeopathy in agriculture: a systematic literature review*

Playlist 7 - Clinical Research 2

Dr Daniel Gallego-Perez, Columbia. *Integration of traditional, complimentary and integrative medicine (TCIM) in the institutionalization of evidence-informed decision-making*

Dr Esther van der Werf, UK. *Insights from studies on homeopathy and antimicrobial resistance: a research program to enhance research quality and evidence*

Playlist 8 - Clinical Research 3

Aaron Ka Lun To & Dr Yvonne Fok, Hong Kong. *Validating the repertory of the future – towards data driven homeopathy*

Dr Andrea Flores, Mexico. *The importance of knowing patients: characteristics and motivations of people who choose homeopathic treatment in Mexico and Latin America*

Dr Hélène Renoux, France. *HOMEOPRO qualitative trial – Homeopathy in chronic conditions*

Dr Deepti Singh, India. *Usefulness of individualised homeopathy versus standard allopathic treatment in acute uncomplicated urinary tract infection (UTI): a randomised comparative trial*

Playlist 9 - Basic Research 3

Dr Francesca Truzzi, Italy. *Biological effects of xerosydryles obtained from Arnica and Belladonna 12CH homeopathic dilutions*

Prof Leoni Bonamin, Brazil. *Solvatochromic dyes as probes of dynamized high dilutions under different experimental conditions*

Dr Steven Cartwright, UK. *The electrical, magnetic and photonic properties of homeopathic potencies*

Dr Bindu John Pulpampil, India. *Cell cycle inhibition and apoptosis induction by Calcarea carbonica 6C in SW 982 and SKOV-3 cell lines*

Playlist 10 - Basic Research 3

Dr Imane Lejri, Switzerland. *Neuroprotection via high-dilution Gelsemium: mitochondrial optimization and Akt/mTOR pathway activation*

Dr Tiziana di Giampietro, Italy. *Sympytum officinalis's anti-inflammatory and regenerative effects on human fibroblast and osteoblast cell lines with extracellular vesicle profiling*

Prof Carla Holandino, Brazil. *Anti-tumoral potential of ultra-diluted Viscum album preparations in murine melanoma cells: insights from in vitro studies*

Dr Ritika Narula, India. *Evaluation of therapeutic potential of selected plant derived homeopathic medicines for their action against cervical cancer*

Playlist 11 - Clinical Research 4

Dr Jean-Lionel Bagot, France. *Applying the Delphi method to the new integrative homeopathic cancer cure recommendations of the international homeopathic society for supportive care in oncology (SHISSO)*

Dr Bhuvaneswari Rajachandra sekar, India. *Insights on effectiveness of homeopathy in alcohol use disorder in individuals with a family history of alcoholism - a retrospective study*

Dr Debadatta Nayak, India. *Effectiveness of Eupatorium perfoliatum 30C in preventing dengue fever- a prospective community-based, open label, parallel cohort study in Delhi, India*

Playlist 12- Basic Research 4

Dr Daniel Wrzalko, Poland. *Patient-specific responses towards homeopathic preparations revealed by chromatographic patterns of an in vitro human blood test*

Dr Michel Van Wassenhoven, Belgium. *Characterization of the material and electrodynamic aspect of high homeopathic potencies*

Prof Stephan Baumgartner, Switzerland. *A narrative review of 30 years of basic research in homeopathy*

Playlist 13- Veterinary Research

Dr Ritika Narula, India. *Therapeutic potential of selected homeopathic drugs in different potencies against neonatal calf diarrhoea*

Dr Cidéli Coelho, Brazil. *Treatment of platynosomiasis in callitrichids using the biotherapeutic platynosomum sp 30 cH and ultrasound monitoring*

Prof Patrizia Bricarello, Brazil. *Homeopathy for the promotion of One Health in agroecosystems.*
